Automation & UiPath

UiPath **Reboot™ Work.**

What is Robotic Process Automation (RPA)?

The automation of repetitive, high-volume processes with **software** robots that mimic human actions and connect multiple systems without changing the existing IT landscape.

Ui|Path Reboot Work.™

# Anything that can be automated, will be

Finance

- Process-to-pay
- Order-to-cash
- Record-to-report

Supply Chain

- Inventory management
- Demand & supply
- Planning
- Invoice & contract management

IT

- Server & app monitoring
- Routine maintenance & monitoring

HR

- Payroll
- Onboarding & Offboarding
- Benefits administration

Customer Services

- Address change
- Password reset
- Payments
- Scheduling appointments
- Order modifications

UiPath is embedded across industries

UiPath™ Academic Alliance

UiPath Academic Alliance Course Catalog

Step into RPA

• Create awareness and generate interest in RPA • 4-hour course • Online self-led or instructor-led

Technical

RPA Design & Development Course*

• Develop in-demand RPA Developer foundational skills

• Instructor-led format, 120-hour course (3-4 credit)

• Aligned to the UiPath Certified RPA Associate exam

UiPath Certified RPA Associate

• Certification for any RPA role including Junior RPA Developers, Solution Architects, Business Analysts etc.

RPA Advanced Design & Development*

• Develop Advanced RPA developer skills

• Instructor-led format, 40-hour course (3-4 credit)

• Aligned to the UiPath Certified Advanced RPA Developer exam

UiPath Certified Advanced RPA Developer

• Certification is for deep technical RPA roles such as Advanced RPA Developers, Solution Architects, RPA Architects and others

Business

RPA Business Analyst Course

• Introduce business analysis approaches, practices, techniques, and requirements models to the domain of RPA

• Instructor-led format, 42 hours

Introduction to RPA for Business

• Understand robotic process automation and its value in business

• Describe and evaluate different business models for a successful RPA implementation

• Instructor-led, 14-hour course (1 credit)

SAP Automation With RPA

• Developing and deploying software robots for automating processes of SAP WinGUI application

• Pre-req: SAP WinGui, Basic UiPath RPA skills

• Instructor-led & online self-led, 8 hours

Contributed Content

RPA in Finance & Accounting

• Understand the impact and benefits RPA brings in Finance & Accounting

• Identify and articulate the opportunities of automation in the work of F&A professionals

• Instructor-led & online self-led, 4 hours

Only available for UiPath Studio (not UiPath StudioX)

Robotic Process Automation - Growth & Prospects

UiPath™ Academic Alliance

182 million

Future of work

By 2025, 85 million jobs may be replaced and 97 million new roles created, with new division between humans, machines, and algorithms

Future of Work Report 2020 – WEF

32.8% CAGR

RPA Market Size Growth

The global **RPA market size** is anticipated to exhibit a CAGR of 32.8% over the forecast period from 2021 to 2028 for a worth of 13.74 billion in 2028 from 1.57 billion in 2020.

www.grandviewresearch.com

84%

Rapid BusinessTransformation

Eighty-four percent of employers are set to rapidly digitize working processes.

Future of Work Report 2020 – WEF

84%

State of the RPA Developer

Eighty four percent of RPA developers surveyed globally agreed that the RPA industry has a high potential for growth over the next five years.

UiPath 2022 State of the RPA Developer

$115,713 per year

Well Paying Jobs

The majority of RPA salaries in the U.S. range between $65,000 to $164,000, with the average annual salary being $115,713. The starting salary in RPA is at $65,000.

www.ziprecruiter.com

7,000+ openings

Unique Job Postings

7,000+ unique RPA developer jobs were posted in the US over the past year with only 1 out of 9 being filled.

EMSI-2021

Academic Alliance & Talent Connect Initiative

By creating partnerships with organizations, we can capture top talent produced by our education platforms and help place these individuals by connecting them to our customers for:

➢ **Internships**

➢ **Apprenticeships**

➢ **Job opportunities**

➢ **Upskilling or reskilling**

We want to build a strong network of trained professionals that can contribute to the growth of the UiPath automation industry.

Next Steps: Start Teaching RPA

UiPath™ Academic Alliance

Apply — Review & Apply

- Go to https://www.uipath.com/academicalliance to learn more
- Click on 'Join' and review the terms & conditions on this page
- Provide information for you and your institution to apply

Confirm — Establish the Partnership

- Receive a welcome email and partnership certificate
- Receive directions to register and download the Resource Kit

Prepare — Prepare with a Resource Kit that contains:

- **Educator Kit:** To learn and prepare to teach
- **Promotion Kit:** To promote the RPA curriculum to students
- **Course Kit:** Course content, educator guides, student guide
- **Certification Kit:** Documentation, communications, vouchers

GO! — Introduce one of the RPA learning paths in your institution!

- Launch - Go Live!
